

AVIONICS SOLUTIONS

Analytic Systems designs and manufactures a complete range of products including: Battery Chargers, Voltage Converters, Inverters, Power Supplies and Frequency Converters for Rail, Commercial and Industrial, Mobile, Military, Marine, Oil and Gas, Telecom and Alternative Energy clients worldwide.

Guardian Mobility is a leading provider of end-to-end solutions for global tracking, voice and data communications, Flight Data Monitoring and analytics services to the aviation marketplace.

Recognized as an innovator for rugged Ethernet solutions for Real Time Applications within the Aerospace and Defense Industries worldwide. A pioneer in timing solutions, data communication products and engineering services.

Freedom Communication Technologies, Inc. engineers, develops, and manufactures communication test equipment for the land mobile radio test equipment market.

Tel-Instrument is a leading designer and manufacturer of avionics test and measurement solutions for the global commercial air transport, general aviation, and government/military aerospace and defence markets. Tel-Instrument provides instruments to test, measure, calibrate, and repair a wide range of airborne navigation and communication equipment.

Laversab builds products and tools that increase the productivity of engineers and operators in the Aviation and Oil & Gas industries. Aviation: Avionics test equipment for all aircraft, including RVSM Pitot Static testers, Air Data Test Sets (ADTS), and automated calibrators. Oil & Gas: Certified computer systems for Hazardous Areas. Typical applications are MWD Surface Systems, Rig Floor Computers, and Depth Tracking Systems.
